

Aarav Sharma

B.Tech Computer Science and Engineering

Skills

C++, Python, SQL, Data Structures, Algorithms, JavaScript, React, FastAPI, PostgreSQL, Git, REST APIs

Projects

Smart Shopping Assistant: Built a product research assistant using React, FastAPI, PostgreSQL and third-party APIs. Added filtering and recommendation workflows.

RepoLens: Developed a repository analysis tool in Python and FastAPI that summarizes code metadata and exposes REST APIs.

Experience

Software Engineering Intern — 1 year. Built backend features, wrote SQL queries, collaborated with a five-person engineering team.

Education

B.Tech in Computer Science and Engineering

Achievements

Solved 400+ DSA problems and led a college technical project team.
